

MARINE

DESCRIPTION

- The "marine coating" version is the solution for marine applications.
- Suitable for corrosive atmospheres such as offshore platforms, boats, maritime or coastal industries...
- The compliance with ACQPA* concerns coatings in accordance with the NF EN ISO 12 944-1 "high durability" class. We provide a 15-year warranty for our coatings.
- Marine version is available for any V range actuator (aluminum cover) and MT.
